## Select Specialist

*Use the information below to choose a specialist*

If you already know the name of the specialist that you wish to send a consult to, simply select that person's name out of the list of specialists. If you are not sure who is the best qualified to answer your consult, take the following steps.

- o First, choose the field in which your consult will fall. This will automatically update the list of specialists to reflect only those specialists who are in the field which you chose.
- o Second, if you wish to narrow your search further, you may choose a specialty inside of the field. This will return a list of the specialists available in this more focused area.
